

The Division of Public Health Sciences Postdoctoral Fellowships in Cancer Prevention and Control Research

The Division of Public Health Sciences in the Washington University School of Medicine and Siteman Cancer Center, a National Cancer Institute-designated Comprehensive Cancer Center, are seeking applications for Postdoctoral Fellowships.

Current openings include those focusing on:

- **Shared Decision Making**
- **Implementation Science**
- **Cancer Disparities**
- **Community-Based Cancer Prevention and Control**

However, all applications will be considered. Applications are considered on a rolling basis.

Eligibility

PhD, DrPH, MD, or other doctoral degree in a public health-related discipline, or a doctoral degree in another discipline with an interest in transitioning to public health research. Applicants are limited to United States citizens, non-citizen nationals, or must be lawfully admitted for permanent residence and possess an Alien Registration Receipt Card.

The Division of Public Health Sciences

The division has a **strong mentoring and career development program** with a track record of successfully placing trainees. We conduct world-leading research, education and outreach to prevent cancer and other diseases, promote population health, and improve quality and access to health care in Missouri and beyond.

Washington University offers excellent benefits and competitive salaries. Support for tuition, books, software and conference travel is available.

Benefits

- Diverse faculty and transdisciplinary environment
- Trainees linked with a mentoring team
- Support for further training and professional development
- Two years of support, possible third year
- Some funding is from the T32 grant (T32CA190194) from the NCI

Send inquiries to: Dr. Aimee James, Training Director, at aimeejames@wustl.edu

To apply: send an application, cover letter, curriculum vitae and professional reference list by email to Blanka Hodzic at bhodzic@wustl.edu

The division is led by Graham Colditz, MD, DrPH, an internationally recognized leader in cancer prevention. Our vibrant group of multidisciplinary faculty conducts research on a wide range of health issues, and there are opportunities to collaborate with clinical, basic science, statistical, and other faculty across the academic campuses of Washington University.
