Message from Kathy Frost, President of WSWU

We had an exciting first half of the academic year beginning with a well-attended Neiman Marcus event in August, followed by three lectures in the fall. I hope you were able to enjoy at least one of these offerings.

- William Wallace explored the possibility of Michelangelo's secret room in Secrets and Silliness
- Tim Bono delighted attendees with a crash course on the science of happiness
- Bob Hansman's presentation was followed by a three-hour bus tour of a city still struggling to deal with its history

It's that time of year when we are thinking about perfect, thoughtful gifts for friends and family. What could be better than giving a WSWU membership that not only provides access to fascinating lectures, but also offers the opportunity to connect with bright and successful women? With warm holiday wishes,
