* Note 1: Academic Year enrollment by division is NOT an unduplicated headcount, i.e. students who were enrolled in different divisions fall and spring are included in the Academic Year numbers for both divisions.

**Note 2: The Total University Academic Year enrollment is an unduplicated headcount.
The graduate programs at Washington University reflect a complexity of relationships between the schools which cannot be fully described in terms of student enrollment by the "prime" division in which the student is classified. The figures below indicate program enrollment within each school for the degrees certified by their faculty. Total program enrollment will exceed the unduplicated headcount of graduate students because some students are enrolled in multiple programs.
