St. Louis Brain Bee

What is the Brain Bee?
A neuroscience competition for students in grades 9-12, the Brain Bee allows students to demonstrate their knowledge of the brain through studying Brain Facts written by the Society for Neuroscience.

Why Participate?
Participants will enjoy hands-on brain activities, meet teenagers from other schools, and learn neuroscience. On the day of the competition, we will host a panel of WashU faculty and students to share about their experiences. All participants will be entered into a raffle where three random students will each win a $100 gift card. If you win the Brain Bee, you’ll be awarded a summer research fellowship at Washington University, along with the opportunity to participate in the virtual National Brain Bee. New to this year’s competition, we will also be awarding the school team of at least three students with the highest cumulative score.

When and Where:
Saturday, March 27, 2021
On Zoom

How should I prepare?
The Brain Bee competition questions will be based off of a Neuroscience handbook found at https://www.brainfacts.org/the-brain-facts-book

Tutorials are college-student-led Zoom review sessions that will be held on the following Saturdays at 11am-12pm: 3/6, 3/13, 3/20. The Zoom link will be shared with all Brain Bee registrants. These tutorial days are highly recommended!
