During the week, teachers sharpen their skills by working in world class laboratories, at the Bio Research and Development Growth (BRDG) Park, located at the Donald Danforth Plant Science Center Campus.

Participants can expect to look into a variety of biotechnology and life sciences topics and hands-on activity such as DNA extractions, gel electrophoresis, PCR, bioinformatics, and much more!

Lunch is free each day to the participants. Teachers will receive a stipend of $500 and $500 of classroom equipment after attending the entire workshop.

For more information contact Lee Douangkeomany, Education Outreach Specialist, at 314-513-4950 or odouangkeomany@stlcc.edu. This workshop is funded by Monsanto Fund and hosted by the Center for Plant & Life Sciences at St. Louis Community College.

**Discrimination:** St. Louis Community College is committed to non-discrimination and equal opportunities in its admissions, educational programs, activities and employment regardless of race, color, creed, religion, sex, sexual orientation, national origin, ancestry, age, disability or status as a disabled or Vietnam-era veteran and shall take action necessary to ensure non-discrimination.

**Accommodations:** St. Louis Community College makes every reasonable effort to accommodate individuals with disabilities. If you have accommodation needs, please call 314-513-4954 within two working days of the scheduled event. Individuals with speech or hearing impairments may call via Relay Missouri by dialing 711.
