Morning Bear Trackers have had a busy, fun January. On our colder days, we enjoy more inside playtime—the children love to build with a variety of materials. Whether using blocks, letters, houses, castles or chains, Bear Trackers collaborate to make beautiful, creative pieces. Outdoors, the sand captures their imaginations.

The children love to play with letters, and each day we explore one (we've been through the alphabet twice so far!). Bear Trackers are starting to take over the white board and draw words that start with the letter of the day. Ms. Colleen appreciates sharing this job!

Until next time,
Ms. Colleen
