BEARS

We began our study of bears by sharing what we know about bears and their habitats. Circle time provides time to listen and learn from one another. We made silly bear headbands and pretended to be bears. Using white puffy paint, we created polar bears. We made "binoculars" for our "Bear Hunt" around campus on Thursday. We climbed a "mountain" of steps, found 2 bear statues, saw lots of Wash U student "bears" and checked out the 1904 Olympic rings. The Sun Bears did a wonderful job on our first campus outing. So proud of our sensational Sun Bears!
LOOKING AHEAD...
October 2 - WUNS Open House
11:00 am - 1:00 pm

October 6 - Picture Day

October 15 - No School: Professional Development Day
