What an "Out of this World" week exploring space! Our dramatic play area was transformed into Mission Control. We pretended to be astronauts in space suits and a pop-up space shuttle. Playground rocks turned into "moon rocks" with a little paint and glitter. The Sun Bears walked to the Earth & Planetary Sciences building on campus. We saw a replica of the Mars rover and a variety of rocks and minerals. Check it out a solar system song:

More Sun Bear Fun...

Coming up...
Next week will continue to learn about SPACE!
12/17/21 - Last Day before Winter Break

Love, Colleen & Katie
