This week we learned about robots! Using an assortment of recycled items, we planned, built, and painted our own class robots. We love dancing to the "I am a robot" song. We built robots using building blocks and manipulatives. Dipping shapes in paint, we created colorful robots on paper. Each day we count how many days that we have been in school. We hit 90 this week! We will celebrate the 100th day soon with a celebration. Next week we will finish our robot unit and begin talking about numbers. Our Sun Bears are so excited to celebrate our 100th day!
More Sun Bear Fun...

Coming up...
3/3/22 - Family Night at the Magic House 6 - 8 p.m. (rescheduled)

3/21-25/22 - Spring Break

Love, Colleen & Katie
