MRC Symposium... Pg. 1

Avioli Musculoskeletal Seminar Series

Fridays @ 9am

BJCIH Bldg. | 11th flr

A/B Conf. Rm.

| DATE | SPEAKER |
|------|--|
| 2/05 | Jennifer Westendorf, PhD <i>Mayo Clinic</i> |
| 2/12 | Wei Zou, PhD <i>Teitelbaum Lab</i> |
| 2/19 | Katherine Weilbaecher, MD <i>Medical Oncology</i> |
| 2/26 | Clarissa Craft, PhD <i>Cell Biology & Physiology</i> |
| 3/04 | No Seminar <i>(AAOS Annual Mtg.)</i> |
| 3/11 | TBD |
| 3/18 | Steven Mumm, PhD <i>Bone & Mineral Diseases</i> |
| 3/25 | Calvin Stephens <i>Curiel Lab</i> |
| 4/01 | Spencer Lake, PhD <i>Mech. Eng. & Material Sci.</i> |
| 4/08 | Henry Donahue, PhD <i>Penn. State College of Medicine</i> |

The February edition of the MRC newsletter will focus on the MRC Annual Symposium. This month's newsletter will be published in two parts; 1. before the Symposium to introduce the featured speaker, and 2. a "recap" after the Symposium. The abstracts are currently under review, and the oral presenters will be selected by the end of this week. Reminder: **ALL** abstracts will be selected for a poster presentation!

We are looking forward to seeing everyone at the MRC Symposium on **February 24, 2016, 1-5pm at the Eric P. Newman Educational Center.**

Dr. Lionel Ivashkiv (*speaking at 4:30 pm*)

David H. Koch Chair in Arthritis and Tissue Degeneration, HSS Professor, Medicine and Immunology, Weill Cornell Medical College Hospital for Special Surgery, NY

"Epigenetics and Osteoclast Differentiation"

Lionel B. Ivashkiv received his undergraduate degree from Columbia College and medical degree from Harvard Medical School. He completed an Internal Medicine residency at Bellevue Hospital-NYU Medical Center and a Rheumatology Fellowship at Brigham and Women's Hospital-Harvard Medical School, where he also completed postdoctoral research training with Dr. Laurie Glimcher. Dr. Ivashkiv joined the faculty of Hospital for Special Surgery and Weill Cornell Medical College in 1992, where he is currently Chief Scientific Officer (HSS), David H. Koch Chair in Arthritis Research, Director of the David Z. Rosensweig Genomics Research Center, and Professor of Medicine and Immunology. Dr. Ivashkiv is a Member of the American Society for Clinical Investigation and the Association of American Physicians. His laboratory studies cytokine-mediated pathogenic mechanisms in autoimmune, inflammatory and musculoskeletal diseases. He focuses on regulation of cytokine signaling, cytokine production, gene transcription, and epigenomic regulation of the inflammatory phenotype of myeloid cells, osteoclasts and synovial fibroblasts that are important in pathogenesis of rheumatoid arthritis, inflammatory osteolysis and systemic lupus erythematosus.
