Changing weather patterns have led to fewer days available in the spring to complete planting, spraying, and fertilizing. University and industry experts will share research results and technology available to help you work smarter and more efficiently.

January 5th – Gambling with Planting Decisions
Drs. Aaron Wilson and Bob Nielsen

January 12th – Planter Placed Fertilizer
Matt Bennett and Dr. John Fulton

January 19th – Pre-season Crop Protection Decisions
Drs. Mark Loux and Scott Shearer

January 26th – Sprayer Technology to Improve Field Performance
Dr. Joe Luck
