

2017 TURFGRASS PATHOLOGY DISEASE DAY

Thursday, July 13 • 9 A.M. – 12 P.M.

Ohio Turfgrass Foundation Research and Educational
Facility

2710 North Star Road
Columbus, OH 43210

You are invited!

Grab a cup of coffee and a donut! Come and spend the morning with Todd and Joe for **FREE!**

Program

- Spend time looking over ongoing disease research trials.
- Hear about new and current fungicides and how to get the most for your chemical dollar.
- Get an update from the disease clinic – what has been reported and what to look out for as the summer progresses.
- Hear the turfgrass pathology team's report on nematodes for 2017, so far.
- Question and answer time – get one on one help with your turfgrass problems.

Sponsors

History

In 1996, a new 7,000 sq. ft. state-of-the-art research facility was built on the West Campus of The Ohio State University. This project was financed by the Ohio Turfgrass Foundation and continues to provide students, faculty and staff with a first-class facility to conduct research. The facility is the anchor of a diverse education, research and outreach program in Turfgrass Science at The Ohio State University. The facility is used by the inter-departmental OSU Turfgrass Science Team, including the Department of Horticulture & Crop Science, Department of Entomology, Department of Plant Pathology and the School of Natural Resources.
