

RESEARCH EXPERIENCE
FOR UNDERGRADUATES
**Science & Engineering
Leadership Initiative (SELI)**

The University of Delaware, Department of Chemistry & Biochemistry, is excited to announce a NSF-funded Research Experience for Undergraduates (REU) program – the Science and Engineering Leadership Initiative. Motivated by the realization that people with disabilities are significantly underrepresented in Science, Technology, Engineering, and Mathematics (STEM) disciplines, *SELI strives to position today's students with disabilities to become tomorrow's leaders in academia and industry.*

JUNE 10, 2019 – AUGUST 9, 2019

APPLICATION DEADLINE: **FEBRUARY 1, 2019**

- » Participate in state-of-the-art research
 - » Meet like-minded peers
 - » Scientific field trips
