Agricultural Fertilizer Applicator Certification
Specifically for those NOT holding a fertilizer applicator’s certificate, although those that do may also attend.

Fulfills certification requirements
This meeting will fulfill the training requirement for all applicators needing a Fertilizer Applicator Certificate.

Who needs the agricultural fertilizer certification?
Fertilizer certification is required if you apply fertilizer (other than manure) to more than 50 acres of agricultural production grown primarily for sale. If you hire a co-op or other custom applicator to make your fertilizer applications, you do not need the certification.

What will be covered in the training?
Best management practices will be the basis of the agricultural fertilizer certification training with a focus on fertilizer applications that have the appropriate rate, timing, placement and source.

Thursday,
September 7, 2017
6:00 to 9:00 p.m.
Elizabeth Township Community Center
5760 Walnut Grove-Clark County Road
Troy, Ohio 45373
