Pumpkin production and management research will be showcased at the 2018 Pumpkin Field Night for farmers and others. Come and meet researchers, view the research plots, and ask questions.

New technology and information for pumpkin growers to utilize cover crops and new plant varieties will be on display and discussed during the field day. Results from a drip irrigation study, powdery mildew fungicide programs, and disease, weed, and insect management will also be discussed.

Researchers who will be presenting include Alan Sundermeier, OSU Extension, Jim Jasinski, OSU Extension, Bryan Reeb, Horticulture and Crop Science, and Claudio Vrisman, Plant Pathology.

**Location:** Western Agricultural Research Station, 7721 S. Charleston Pike, South Charleston, OH 45368. The station is located 3.5 miles northwest of South Charleston on State Route 41, Clark County, Ohio.
