

Small Grains Management Workshop

Thurs. January 9, 2020 • 9:00 AM-2:30 PM • \$10

Auglaize County Administration Building – downstairs room (209 S. Blackhoof St., Wapakoneta, OH)

CCA, CEU, and Pesticide (Commercial and Private) credits have been requested.

Join OSU Extension as we present a hands-on, intensive small grains management workshop for Ohio crop producers. This workshop will help you become a more profitable small grain producer and will feature a range of winter wheat and barley management topics including: cultural practices, insect and disease management, and nitrogen management.

In addition to the great presentations throughout the day, participants will receive a small grain management notebook. The notebook will include the following publications:

- Ohio Agronomy Guide
- Corn, Soybean, Wheat, and Alfalfa Field Guide
- Management of Winter Malting Barley
