MARCH 11, 2020

WOMEN FOR THE LAND

Supporting ourselves and our families during stressful times

Stress and depression are on the mind of agricultural communities, where economic, social, and environmental forces challenge the health and safety of farmers, agricultural workers, and their families. Please join us, along with Jami Dellifield, OSU Extension Educator, to discuss stress, mental health, and what we can do to support ourselves and our families.

Please note the change in location!
