

**RN-BSN Professional Electives**

Each RN student is required to complete *three* hours of professional electives in addition to the specific courses required by this program. Professional Electives are defined as course work that contributes to the professional growth and development of the individual. Non-nursing professional electives can be drawn from many areas across campus. If a student wishes to enroll in a course other than those listed below, prior approval must be obtained. Some courses will require prerequisite coursework. It is the responsibility of the student to make sure they are meeting all required prerequisites.
