Your Performance Compared to Other Examinees

The chart below represents the distribution of scores for examinees from US and Canadian medical schools taking Step 2 CK for the first time between July 1, 2017 and June 30, 2018. Reported scores range from 1-300 with a mean of 244 and a standard deviation of 17.

If you tested repeatedly under the same conditions on a different set of items covering the same content, without learning or forgetting, your score would fall within one standard error of the estimate (SEE) of your current score two-thirds of the time. The SEE on this exam is 8 points.

Your score +/- SEE: 248 – 264

Your Relative Strengths and Weaknesses

The boxes below indicate areas of relatively lower or higher performance in each content area within the Step 2 CK examination. A box in the "Higher" column indicates that your performance in that area was higher than your overall Step 2 CK performance shown on page 1. A box in the "Same" column indicates that your performance in that area was similar to or the same as your overall Step 2 CK performance. A box in the "Lower" column indicates that your performance in that area was lower than your overall Step 2 CK performance. The percentage range of items from each content area on the Step 2 CK examination is indicated below.

This information can be used to identify areas of strength and weakness to guide future study. Because the exam is highly integrative, USMLE recommends reviewing all content areas if retaking the test.
