

College of Nursing Immunization Requirements

All College of Nursing students are required to be in progress of completing immunization documentation listed below. Failure to do so will affect the student's ability to attend clinical or health assessment. Immunization documentation must be submitted directly to the Wilce Student Health Center via MyBuckMD document uploader. <https://shs.osu.edu/services/mybuckmd/>

If the student is in progress for Hepatitis B, the student will be considered temporarily compliant; however students are re-quired to submit the necessary paperwork to the Wilce Student Health Center after each step of the immunization process.

Hepatitis B:

- To achieve compliance, the following two requirements must be completed:
 1. Hepatitis B Surface Antibody Test (Titer)
 - The titer must be positive (reactive).
 - If the titer is negative, completion of the hepatitis B vaccine series is required.
 2. Hepatitis B Vaccine Series
 - Documentation of three (3) shot series. The 2nd dose should be administered at least one (1) month after the 1st dose; the 3rd dose should be administered at least six (6) months after the first dose with a minimum of two (2) months between the 2nd and 3rd.
 - After completion of the 3 shot series, a positive hepatitis B surface antibody test (titer) must be documented.
 - If the titer is negative, the series must be repeated and an additional titer must be completed.
 - A booster dose of hepatitis B vaccine can be administered after a negative titer is discovered. This can be given immediately after the titer.

MMR

- Two (2) shot series, with one (1) month between each injection.
 1. Vaccines must be completed after the first year of life.
- Surface Antibody tests for Rubeola (Measles), Mumps Rubella will be accepted in place of the vaccines.

Varicella

- Positive varicella titer
- OR
- Two (2) shot series of varicella vaccine, with one (1) month between each injection.

College of Nursing Immunization Requirements

Tetanus

- One (1) Tdap vaccine is required within the last 10 years.

Two-Step PPD

- An initial two-step PPD test is required.
- Submit a **one-step PPD test, annually**.
- If there is a history of a positive PPD, a chest x-ray in addition to documentation of a positive PPD test is required.

Influenza

- Documentation of an annual flu vaccine administered during the current flu season is due before **October 1**.
