

Friends of the Earth Bracelet

BLUE is for the sky

On a clear and pretty day.
I will do the best I can
So it will stay this way.

YELLOW is the sun,

A warm and shining ball
Reaching down with rays of light,
Helping me grow tall.

RED is the autumn leaf

Hanging on a tree –
Adding color to the land
Before it flies so free.

BROWN is for the soil so rich

Where we raise our plants.
It is also a home
For lots and lots of ants.

WHITE reminds me of the clouds

As they float up high.
It's fun to watch these balls of fluff
Move so quickly by.

GREEN is the grass

Gently blowing in the breeze.
Did you know that some green things
Never, never freeze?

PURPLE is a flower

As it grows along the road,
Nodding to the travelers,
Shading Mr. Toad!

As I look around this earth,

The colors aren't the same.
Why are we polluting?
Who should get the blame?

This bracelet will remind me

That I need to care.
I will be a friend to earth;
I don't want it bare!
