

Are you a parent of a child with a disability ages 16-22?

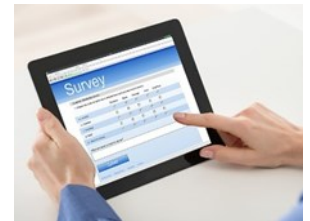

We want to learn about sexual health education for your child.

We are doing a **survey** with people who are parents of young adults with disabilities.

- What do you think about sexual health education for your child?
- What have your child's experiences been?

Your voice is important!

What will happen in the study?

- You will do an online survey.
- You can do the survey on your own phone, tablet, or computer.

- The survey will take 20-45 minutes.

20-45 min

- We will not ask for any personal information.
- Everything you say will be private.

Ariel Schwartz at Boston University is in charge of this study.
