

Opportunity for Youth with Disabilities

SRI Education needs your help to develop an interview about the mental health of youth and young adults with Intellectual Disability (ID). Participants will play an important role in an effort to improve the mental health outcomes of adolescents and young adults with ID.

Who can participate:

- Youth and young adults experiencing intellectual disability ages 14-24.

What will participants be asked to do?

- Participants will take part in a 2-3 hour interview online through a secure video chat platform.
- Youth will be asked to respond to a set of interview questions about their moods, feelings, emotions, and behaviors.
- Caregivers and parents will be asked to answer questions about their child's moods, feelings, emotions, and behaviors over time.

How do youth and caregivers benefit?

- Those who participate will help with the development of the first diagnostic assessment of mental health disorders among youth with ID in addition to receiving a gift card.

To find out if you are eligible to participate or for more information with no obligation, please contact
Lori Hodge: lori.hodge@sri.com, (650) 859-2571

\$100.00 !!!
Both the caregiver and youth will each receive a \$50.00 gift card for participating!

Participation in this study is voluntary. All participants' information will be kept confidential. Participation has no bearing on participants' status in any program or referring organization. This project is supported by the National Institutes of Health (NIH) through Grant MH108869 to the University of Oregon.
