Pollinator Monitoring Data Sheet Date: _____/_____/2018

The day should be sunny with little or no wind, and at least 50°F. Best time between 10 and 2.

Name:_____ Location:_____

Once a week, observe each plant in bloom for 3 minutes. Use hash marks (𝍸) to count each pollinator that lands on the flower. Later, visit the data collection. For "Other bee, known," make a note below, then enter the name of the bee in the comments section of the website. Questions? Contact Denise Ellsworth at ellsworth.2@osu.edu

Plant Species	# of flowers observed	Bumble Bee	Carpenter Bee	Honey Bee	Other bee, known	Other bee, unknown	Humming bird	Butterfly or moth	Wasp	Fly	Beetle
