During its early years as members of the Big Ten Conference, the University of Chicago was known to field one of the nation's top football teams. Today, the Maroons continue the legacy of athletic excellence with 19 NCAA Division III varsity teams, more than 75 intramural and sport clubs programs, and state of the art training facilities across campus. Please follow appropriate social distancing measures, even while outside, and follow Chicago and Illinois state guidelines for safe conduct during the COVID-19 pandemic.

PARKS

JACKSON PARK

This 500-acre park, nestled between UChicago and Lake Michigan, was once the grounds for the World's Columbian Exposition of 1893. These days, all that remains is Chicago's second most attended cultural attraction, the Museum of Science and Industry. The park is also a great place for birding with over 250 avian species!

WASHINGTON PARK

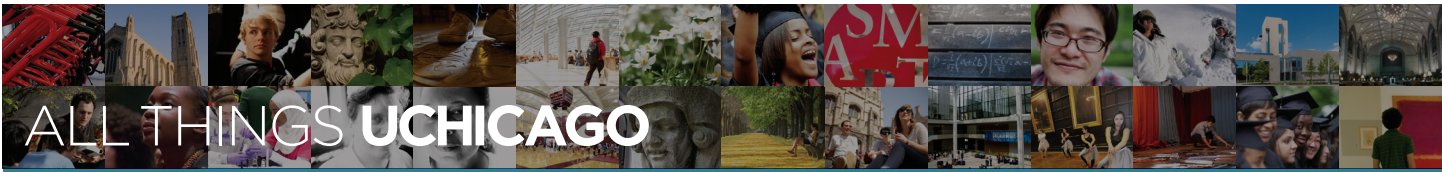

To the west of campus lies Washington Park, a 372-acre green space which hosts numerous festivals, a wetland lagoon, and the largest 16-inch softball league in Chicago—34 teams play on 13 diamonds. The park is also home to the DuSable Museum of African American History.

MIDWAY PLAISANCE

The Midway, originally intended to be a Venetian style canal linking Lake Michigan with Washington Park, is today a green expanse where students can relax on sunny days, play intramural sports against other houses, and throw snowballs in the winter.
