Spring 2016 Diversity Survey

Introduction
This survey is focused on several dimensions that could cause groups or individuals to be systematically excluded from full participation in the university. This survey is going out to all students, staff, and faculty. We are asking you to complete this survey based on your experiences as a [student//staff member//faculty member].

We are focused on campus climate: the atmosphere of an organization as perceived by its members that can influence whether an individual feels personally safe, listened to, valued, and treated fairly and with respect.

We understand that there are many different ways of defining several words in the survey, including racism, sexism and so on. While we do not assume a particular definition of most of these words, for purposes of this survey, some key terms should be understood as defined below:

SEXUAL ORIENTATION is the inclination or capacity to develop romantic and sexual relationships with people of the same gender (e.g., lesbian, gay), a different gender (heterosexual), or any gender (e.g., bisexual, omnisexual).

GENDER IDENTITY is the psychological sense of one’s gender (for example male, female, intersex, genderqueer, transgender).

GENDER EXPRESSION is the ways in which one expresses one’s gender identity in terms of behavior, appearance, speech, and movement.

PEER is a fellow student, staff, or faculty member who does not supervise you for employment or course grading purpose.
