Modern Hebrew Language at U Chicago

You know, Abraham spoke the language of the Hebrew men
And also Jesus from Nazareth, and Maria Madelaine
Einstein, Jeremiah, The Dylan and the Cohen
They know something about the language of the Hebrew men...

What do YOU know about modern Hebrew?

The modern Hebrew language had been revived as a spoken language only at the end of the 19th century. Nowadays, Modern Hebrew is the Lingua Franca – the spoken language in Israel by the many different ethnic groups living in Israel.

In Hebrew you can do everything: live, create, sing, report, have a good quarrel and even make peace – SHALOM! Learning the vibrant and dynamic modern Hebrew language will get you better acquainted with the diverse Israeli culture.

At the U of Chicago, we offer a program with an abundance of audio-visual technique usage and new global oriented curriculum, inspired by the Hebrew University of Jerusalem modern Hebrew curriculum. You will also benefit from extra-curricular activities such as bi-weekly movie screening, named Ba Li Seret club & a weekly informal conversation, named Kafe Ivrit.

We would like to invite you to join one of our in-person courses in the coming Autumn quarter. While our courses are intensive, our moto is:

Learning Hebrew with fun
