Transition Metal Oxides and Lithium Ion Batteries: “Adventures in Ceramic Engineering”

honoring John B. Goodenough
recipient of the 2018 Benjamin Franklin Medal in Chemistry

This symposium brings together an international array of experts in the materials chemistry, physics, and engineering of transition metal oxides and leaders in the exploration of these systems for advanced lithium ion battery technologies. The symposium will close with the Plenary Laureate Lecture from Professor John B. Goodenough.

THURSDAY APRIL 19TH, 2018
8:00 AM TO 12:00 PM
UNIVERSITY OF PENNSYLVANIA
LABORATORY FOR RESEARCH ON THE STRUCTURE OF MATTER
LRSM AUDITORIUM
3231 Walnut Street
Philadelphia, PA 19104-6202

SPEAKERS:
8:30 AM Prof. Jianshi Zhou
University of Texas at Austin

9:00 AM Prof. Takeshi Egami
University of Tennessee at Knoxville

9:30 AM Prof. M. Helena Braga
University of Porto, Porto Portugal

10:00 AM Break

10:30 AM Peter Bruce
University of Oxford, Oxford UK

11:00 AM Laureate: John B. Goodenough
University of Texas at Austin

PRICE: Free and open to the public

CONTACT: Mr. Robert Wertz 215-573-7887
e-mail rwertz@sas.upenn.edu

For nearly two centuries, The Franklin Institute has honored pioneering achievements in science, engineering, and industry. As the oldest comprehensive science awards program in the United States, The Franklin Institute Awards celebrates Benjamin Franklin’s legacy by honoring the Franklins of today. Through their remarkable contributions, our laureates inspire the Franklins of tomorrow.
