

# Linear Art Instructions

Step 1.) First you have to connect all of your points to make the Superman symbol in the middle,

Step 2.) Next you have to connect the rest of the points to make the 4 diamonds,

Step 3.) Now you have to make your lines, starting with point  $y=-12$  and ending with line  $x=20$ ,

Step 4.) Then you color and then you're done making you design.
