

# Plate Tectonics Crossword

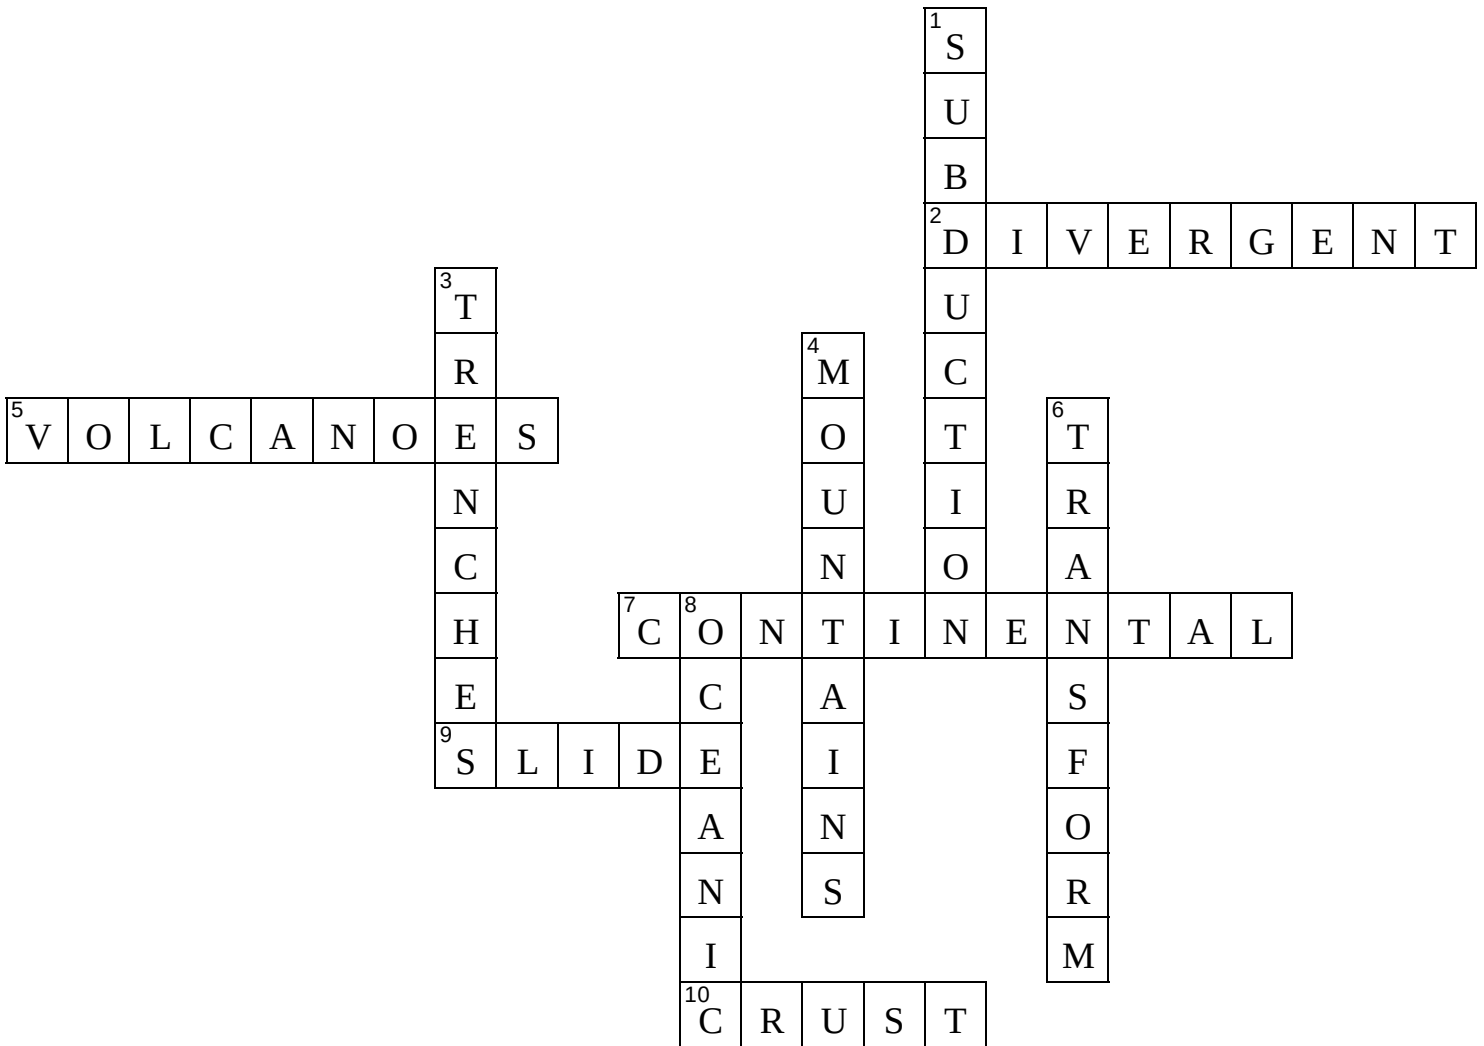

## Across:

2. oceanic plates separate when this boundary occurs
5. \_\_\_\_\_ are created by subduction
7. less dense/older type of plate
9. when plates \_\_\_\_\_ against one another its called a transform boundary
10. oceanic plates separate and form new oceanic \_\_\_\_\_.

## Down:

1. \_\_\_\_\_ happens when continental and oceanic plates meet
3. subduction creates deep ocean \_\_\_\_\_(s)
4. convergent plates come together to form \_\_\_\_\_(s).
6. can create earthquakes
8. more dense/younger type of plate

# Plate Tectonics Crossword

**Across:**

- 2. oceanic plates separate when this boundary occurs
- 5. \_\_\_\_\_ are created by subduction
- 7. less dense/older type of plate
- 9. when plates \_\_\_\_\_ against one another its called a transform boundary
- 10. oceanic plates separate and form new oceanic \_\_\_\_\_.

**Down:**

- 1. \_\_\_\_\_ happens when continental and oceanic plates meet
- 3. subduction creates deep ocean \_\_\_\_\_(s)
- 4. convergent plates come together to form \_\_\_\_\_(s).
- 6. can create earthquakes
- 8. more dense/younger type of plate
