Finding and Citing Music Materials

Cook Library has many materials to help you create engaging lesson plans involving music. To start, visit the Juvenile Collection located at the back, right corner of the 4th floor of Cook Library.

Music Materials Browsing Guide

- **Juvenile non-fiction area:** books written for children about music concepts, illustrated songs, song anthologies (780-789)
- **Juvenile fiction area:** Picture books of stories about musical subjects or themes (various – filed by beginning letters of author’s last name)
- **Juvenile biography area:** Picture books with factual information about musicians/performers (at end of non-fiction section with books filed by subject’s last name)
- **Also of note:** at the back, right corner of the 5th floor of Cook Library - MT area – instructional books/materials on teaching music (MT1)

Citing Music Materials in APA Style

The citations below are based on examples and guidelines found in the Publication Manual of the American Psychological Association (APA) 6th edition. Find more examples in our online guide at [http://towson.libguides.com/apastyle](http://towson.libguides.com/apastyle)

General Guidelines

- Authors are cited using last name and first initial only
- Book titles are italicized, but not properly capitalized – only the first word, proper nouns, and the word immediately following a colon are capitalized
- Individual song titles, web documents, and book chapters are not placed in double quotes or italicized
- Standard citation practice uses double spacing and a hanging indent – the final authority for placement and spacing within a lesson plan is your instructor
