

Shack #	NA	WP 6009	WP 40040	WP70036
# Living in Home	3	1	2	4
Electricity?	N	N	N	N
Cooking Source	candle/paraffin	paraffin	paraffin	paraffin
Typical Meal	bread and samp	bread, rice	rice	rice, bread
Time Spent Cooking	3 times daily for a total of 10 hours	Depends on meal, rice takes 30 min	Twice daily for an hour each, heats water three times daily	3 times daily
Cooking Expenses	1 L paraffin daily (at R 6.50/L)	R80 monthly	buys 1L paraffin every 2 days	uses 3L paraffin daily
Heating Source	paraffin heater	blankets	paraffin, though not often	paraffin heater
Heating Expenses	2L paraffin daily	none	not noted	5L every 2 days
Concerns	Paraffin is dangerous, doesn't want it to cause a fire or blow up. has to watch the stove constantly	No real concerns, feels save using primus stove (cost R 190 in 2007)	Expenses and distance from available resources	Concerned about using paraffin, though if electricity was available, he wouldn't use it
Other Comments	Money/cost is very important. Wants to use gas	Uses batteries for a radio (3 weeks of batteries is R 288.99)	Cooking > heating, would prefer to use gas	Took a picture of the stove (1L, black, R100) and heater (5L, red, R500)
