

Master's Degree Program in Natural Resources Conservation

Geographic Information Systems (GIS) Competency Information for Prospective Applicants

January, 2020

Students are also expected to have some exposure to Geographic Information Systems (GIS). Students needing to refresh their knowledge or establish a foundation prior to the start of the program are asked to take the approximately 3 hour "Get Started with ArcMap" course at the following link: <https://www.esri.com/training/catalog/57660c89bb54adb30c94541c/get-started-with-arcmap/>

If you have questions about GIS and the 3 hour course, please contact Dr. Melanie Johnson at mjohnson1001@paulsmiths.edu.
