The Jenkins Mountain Scramble half marathon and 10k will take you down logging roads, wooded trails, rooted single-track, over bridges and around ponds.

There will be **one support station** at the base of Jenkins Mountain but racers should carry what they will need, otherwise. Runners should be prepared for varying trail & weather conditions, and **2,364ft of elevation gain.**

The half marathon will feature a gradual climb to the summit of Jenkins Mountain (2,513 ft.) and a steep, well-marked **trail-less section** to the base of the mountain.
